Instructor Information:

*Masters of Fine Art in Visual Art from Norwich University
Bachelors of Science in Art from Lewis & Clark College
Certificate in Virtual Worlds from University of Washington
Although my degrees have focused on art, my theories, techniques, and practices have been communicated via the computer sciences. I have worked with both PC and Macintosh computers since 1980, and worked as an instructor at Monterey Peninsula College, Peninsula College, and taught digital media through my own independent courses and workshops. As part of my personal business, unique as you, I design marketing packages, websites, virtual world environments, and train individuals and small businesses on software foundations, Internet skills, social media usage, and virtual world proficiency.*
